Years in Operation	Equipment Models	In-house Manufacturing

About Us

Jothi Industrial Instrument has been manufacturing and servicing laboratory and industrial equipment since 2012. Over 14 years, we have built a catalog of 57+ equipment models — furnaces, ovens, incubators, environmental chambers, baths, shakers and specialised lab instruments — all designed, built and tested in-house.

When a client project calls for a specification outside our standard catalog, our R&D team develops the machine to match — temperature ranges, chamber sizes and control requirements included. That is the difference between a supplier and a manufacturing partner.

Our Product Range

Furnaces
Tubela, Muffle, Electric, Tubular, High Temperature (up to 1700°C), Cupellation, Fusion, Lab Furnace

Ovens & Driers
Hot Air Oven, Industrial Oven, Delux Oven, Lab Oven, Vacuum Oven, LCD Oven, Tray Drier, Oven Conveyor

Incubators
BOD, CO2, Egg, Incubator Shakers, Shaking Incubator (bench top & floor model)

Deep Freezers & Refrigerators
Chest & upright models from –40°C to –120°C, Blood Bank & Pharmaceutical Refrigerators

Environmental & Test Chambers
Humidity, Environmental/Stability, Salt Spray, Hot & Cold, Pharma Stability, Pass Box, Glove Box

Baths, Shakers & Mixers
Circulation, Cryo & Water Baths, Viscosity Bath, Orbital/Rotary/Rocking Shakers, Stirrers, Mixers

Lab Instruments & Others
Autoclaves, Carbon Sulphur Apparatus, Kjeldhal Units, Water Distillation, Rotary Evaporator, Conveyors
